

## **Financial Modelling & Valuation**

(Premium Food manufacturer)

- Built proforma financial statements based on bottom-up sales model and understanding of financial restructuring that took place a year prior.
- Compared and contrasted key differences between management models and banker valuations

### FINANCIAL VALUATION MODEL

#### **SITUATION**

- Private Equity firm was conducting an investor due-diligence for a premium food product company that underwent a series of restructuring events
- As a part of the due-diligence, PE firm required to complete the financial valuation modelling in a short turnaround period
- PE firm partnered with Merilytics to build **bottom-up financial statements** (P&L, Balance Sheets and Cash Flows), **forecast statements, post restructuring balance sheets for the group of entities, DCF and EV-EBITDA model**

#### **VALUE ADDITION**

- Built the proforma Financial statements P&L, Balance Sheet & Cash Flow Statement
- P&L was built using a bottom-up approach using fundamental production and sales drivers. We also built the monthly financial model for two forecast years considering various factors such as sales and production seasonality
- The model also included pre-restructuring Balance Sheet for the individual companies and post-restructuring Balance Sheet for the group of entities

## IMPACT

- Quick turnaround times helped the client to make investment decisions using fundamental drivers of the demand
- Comparison of our analysis with Financial statements produced by the company and a 3rd party vendor, helped the PE firm validate the financial health of the company and differences in cash flows due to the restructuring events
